

Interactive Computing E-Infrastructure  
Public Information Event

Co-funded by  
the European Union

BSC Infrastructure

Javier Bartolomé

Barcelona

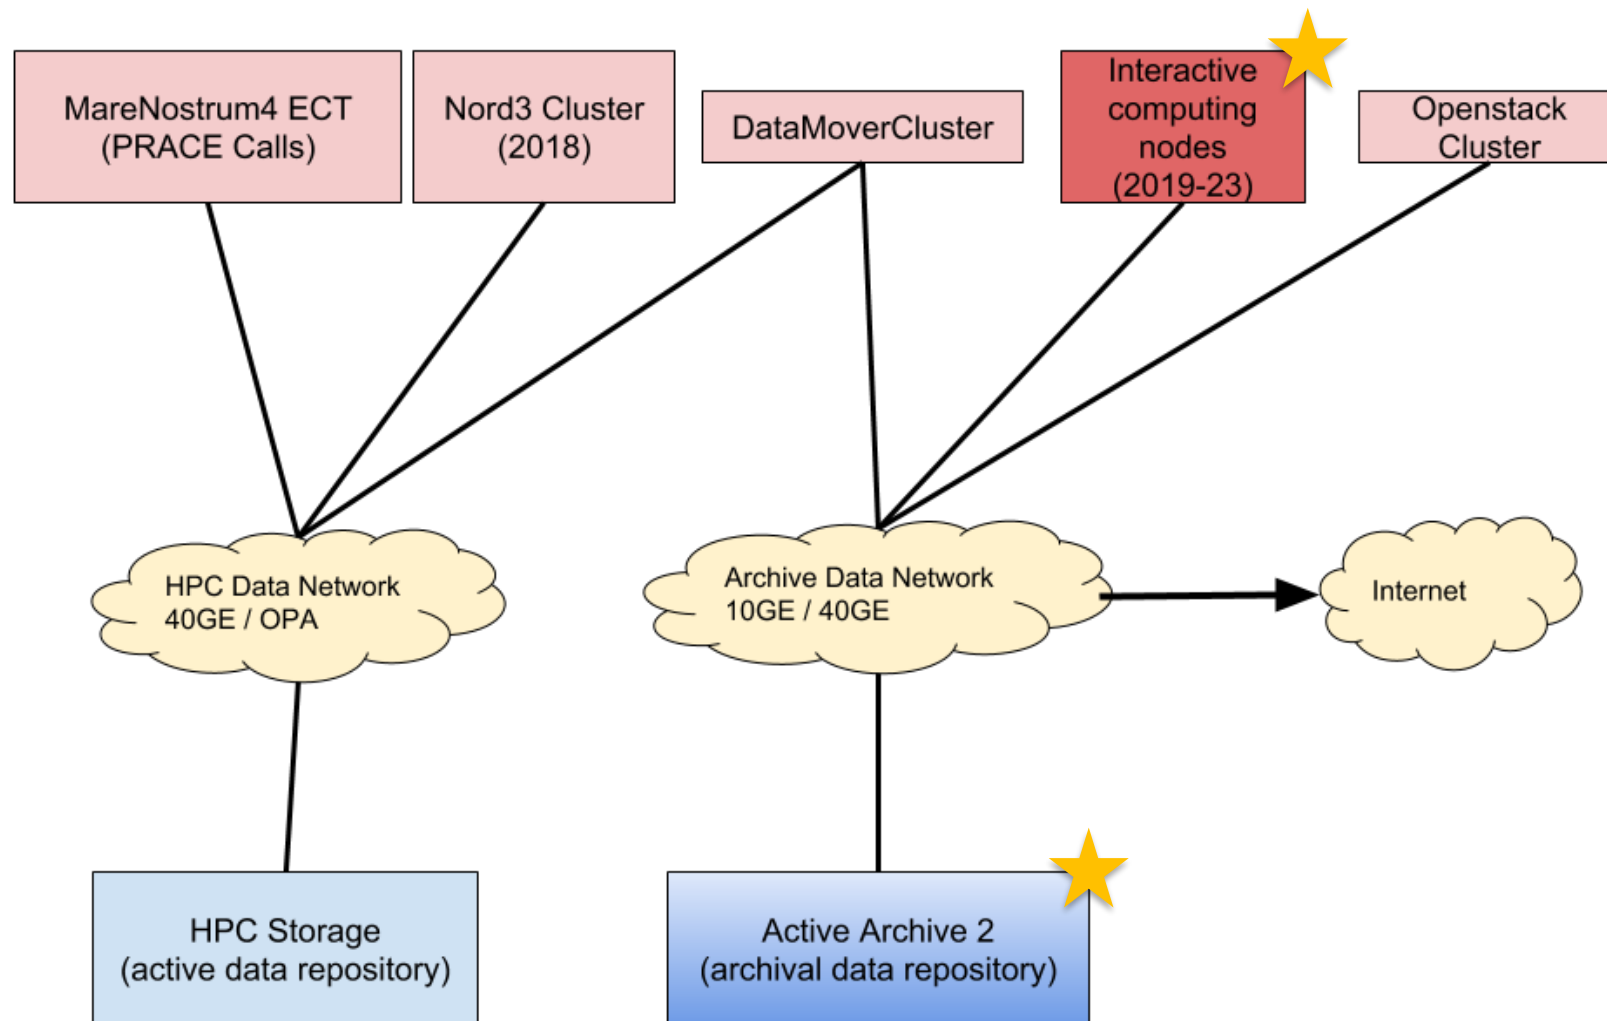

15 March 2018

# Disclaimer

---

*Neither this announcement nor the event itself signifies the beginning of a procurement procedure or constitutes a commitment by the public procurers involved in the presentation to undertake such exercise at a later stage*

# BSC Infrastructure

# BSC New/upgraded components

- **Interactive computing node cluster**
  - Compute cluster
  - Nodes with memory/storage technologies to accommodate interactive workloads
  - Tightly integrated with other BSC facilities (Archive, HPC clusters)
- **Upgrade BSC tiered-data archival infrastructure**
  - Capacity upgrade
  - Performance upgrade
  - Enable Swift interface access methodology

Co-funded by  
the European Union
